How Phobias are Named

The word *phobia* is Greek, therefore any word that is connected to it should be Greek. To coin a new phobia name, it is proper to follow this rule. The rule has been broken many times in the past especially within the medical profession which is steeped in Latin and often, when forming a name for a phobia, they have dipped into what they know and have used a Latin suppletion affixed to the Greek stem to form their names. The language pundits frown on this but it has happened time and time again over the years and these words have become accepted. There are a number of these words used daily. Television is one such word, *tele* from Greek, meaning distant, and *vision* from Latin, meaning a seeing.
